Title: Movement – Functional Movement Systems: Screening, Assessment, and Corrective Strategies.

Author: Gray Cook

ISBN-10: 978-931046-72-5

Edition:

Publisher: On Target Publications, Aptos CA

This nontraditional research paradigm is proposed as a possible bridge to link the science and practice of clinical research. Specifically, the clinical reality of providing intervention to children from their initial treatment to discharge provides a broader perspective of treatment efficacy while also serving as a foundation for future areas of more controlled investigations of specific variables. What is the best way to plan surgical research? What problems are most often encountered in clinical research? How should a research report be presented at a scientific meeting? These questions and more are all answered in Principles and Practice of Research. The second edition has added new sections on animal research models, the molecular and cellular dimension of surgical research, and
