Active learning strategies can transform the classroom atmosphere. But how do they work? Here are 8 easy strategies, plus a downloadable list. In short, the exercise helps students reflect on the lesson and identify concepts needing further examination or study. Example of a "muddiest point" handout to issue to students. Image source: TeachersPayTeachers. Ultimately, these active learning strategies will help build understanding rather than memorization of facts, giving students the confidence to apply learning to different problems and contexts and achieve greater autonomy over their learning. And, after all, that's exactly what makes active learning "active": putting students at the center of the learning process as they take the initiative to learn. * Learning strategies are the ways in which students learn, remember information and study for tests. They refer to the actions and behaviors students use to learn but learning styles refer to the general approaches that students use in acquiring a new language or in learning any other subject. * The strategies a student uses to learn depend greatly on his/her own learning style. Learning styles: Each student has his/her own style of learning. Online Learning book. Read reviews from world's largest community for readers. Additional examples of online learning applications that support dialogical pedagogical models are MUDs and MOOs (Dabbagh & Bannan-Ritland, 2005). MUDs and MOOs are knowledge networks that emphasize social interaction and negotiation through role-playing. A MUD (Multiple User Dungeon or Multiple User Dimension) is "a complete virtual world in which you become the body of a character you adopt to navigate that world" (Hall, 2001, p. 55). *Online Learning: Concepts, strategies, and application*. Upper Saddle River, NJ: Prentice Hall. Dille, B., & Mezack, M. (1991).
