Evaluation, Dissemination, and Assessment Center, California State University. Fuller Renée, Ph.D. 2002. *The Power of Context; Creating Meaning in Language and Thought. How to Use it to Teach Reading*. Copyright © Renée Fuller. But in the Pacific, the impacts are already being felt by communities. This came across clearly in our work on the Climate Vulnerability Assessment "Making Fiji Climate Resilient" report, which the Fijian Government produced with the support of our team and the Global Facility for Disaster Reduction and Recovery (GFDRR), and which was launched at COP23. Working with the Government of Fiji, and a wide range of experts across a broad range of sectors really brought the story of climate change to life, making the impact on the everyday lives of Fijians clearer to the team. Coming together to tra... What does climate change mean for Fiji's roads or electricity? Or for its health system, or its schools? What can be done to make Fiji's towns more resilient?

The book can match the learner rather than the class, and for learners on either extreme of the reading ability in the class, this has got to be good news. Those who are bored with "easy" class material can stretch themselves, and those who struggle can finally read without relying exclusively on translations. Elley, W.B. and Mangubhai, F.
