## Birth Day: A Pediatrician Explores the Science, the History, and the Wonder of Childbirth

By Mark Sloan

Bodega Bay Books, United States, 2014. Paperback. Book Condition: New. 213 x 137 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.I delivered twenty babies in the summer of 1977. I was hardly more than a baby myself, just turned twenty-four and starting my third year of medical school. -from Birth Day So began Mark Sloan s three-decades-long exploration of the wonders and oddities of human childbirth. Pediatrician, husband, and father, the author has attended nearly three thousand births since that long-ago summer, encountering everything from routine deliveries to tense labor-room dramas. In Birth Day, Sloan draws on his personal and professional experience to weave the strands of memoir, history, science, and culture into a fascinating-and often funny-tapestry of this fundamental human passage. Birth Day takes the reader on a remarkable journey, from the dawn of human history to the quiet efficiency of a modern operating room; from Aristotle and Julius Caesar to a trailblazing, cross-dressing British army surgeon; from a recent past filled with the horrors of childbirth gone wrong to a present day, in which every pregnancy is expected to end happily. Some of Birth Day s many topics include The evolution of human childbirth-or,...

From beginning to end, Birth Day is jam-packed with information about childbirth and a baby's first day of life. Dr. Mark Sloan skillfully combines scientific knowledge and medical history with personal anecdote to make for an informative and entertaining read. Be prepared to learn quirky facts about why and when women began to lie down to give birth, what a fetus senses inside the womb, and what it's like to enter a world of bright lights and giddy chatter, to useful information about C-sections and epidurals.Â Yes, there are anecdotal stories that are often hilarious, but the book is filled with a wonderful history of child birth, surveying practices from all regions of the world. The author paints vivid pictures of the days of "Twilight Sleep" and the rise of the natural birth movement.
