**A beautifully illustrated history of one of North America's most enduring cultural symbols and recreational pastimes.**

There is hardly a river or lake in North America that was not first seen from the gunwale of a canoe. Centuries before the invention of the train and the motorboat, canoes were used for exploration, trade, war, and the hunt. Indians crafted canoes out of dugout logs, birch bark, and animal hides; French colonists employed courier canoes; and the Spanish explorers brought cane and woodcrafts with them to new lands. The canoe has brought together Native Americans and European colonists, promoted exploration, and changed the economy forever with the onset of the fur trade. Hundreds of years later, it continues to hold practical, ceremonial, and totemic significance for many North Americans. *The Canoe: An Illustrated History* explores the role of this elegantly simple craft in history and modern culture. With accounts of historic canoe trips and infamous battles, detailed explanations of Native American canoe-building techniques, and more than 80 photographs, *The Canoe* is a must-read for paddlers and history buffs alike. A beautiful package. 45 color photographs.

The Iroquois lived in permanent villages, tall long wooden huts with barrel-shaped roofs. These huts were made from a framework of saplings covered by sheets of dill bark. "Canoes," by Mark Neuzil and Norman Sims, is a vibrant history of one of North America's most beloved conveyances. (University of Minnesota Press). The book, which includes an introduction by New Yorker writer John McPhee, glides through the birch-barks of the Native Americans and the canoes of the French fur traders of the Hudson's Bay Company.Â This generously illustrated volume shows canoes bobbing on lakes, some beached ashore, others girded on a workshop bench, ribs exposed. We also see fur traders negotiating rushing rapids, Indians paddling among bulrushes, and fathers and sons fishing over the side on a warm summer's day. Browsing these pages, one senses what the naturalist Sigurd F. Olson called the "magic in the feel of a paddle."
