Here, I am including excerpts of a book written by John Restakis in 2010 entitled, Humanizing the Economy. I believe it will be helpful in our discussions about creating a new economic, political and public narrative based on a new scientific paradigm. A key purpose of his book is to show that the popular drive to democratize economies is a force that is working to transform virtually every economy in the world today. And for those who are willing to look, the evidence of a new, more humane economic and social order is there to see. Sign up for our newsletters. I wish to receive updates from:
