This is an English historian's account of American history and is obviously free of the bias and prejudice that often comes from the accounts of American history by Americans. It has another advantage – perhaps a more important one – and that is that it was published in 1985, long before the collapse of the Berlin Wall, the end of the Cold War, the many hot wars that America has been involved in after the 9/11 attack. Thus its views of the American past up to 1985 is untainted by the modern events. But that said, this book is out-of-date. Read more. For other uses, see American colonists (disambiguation). "Colonial America" redirects here. For other uses, see Colonial America (disambiguation). "American Colonial Period" redirects here. It is not to be confused with American Colonial Period (Philippines). Part of a series on the. History of the United States. Timeline. These groups all became part of the United States when it gained its independence in 1776. Russian America and parts of New France and New Spain were also incorporated into the United States at various points. The diverse groups from these various regions built colonies of distinctive social, religious, political, and economic style. Over time, non-British colonies East of the Mississippi River were taken over and most of the inhabitants were assimilated. Native Americans were the first inhabitants of this rich land. They are believed to have come over from the Eurasian continent by way of the area we know today as Alaska and Canada. It is easy to follow the chronological timeline of the United States. Its history often begins with Leif Ericson, who is believed to have travelled to this land in the year 1000. Then by Christopher Columbus in 1492, the pilgrims in the 16th century, later followed by other European nations such as Spain, Portugal, and Britain. As we fast-forward through the years, the role of this young nation is evident in every

This is an English historian's account of American history and is obviously free of the bias and prejudice that often comes from the accounts of American history by Americans. It has another advantage – perhaps a more important one – and that is that it was published in 1985, long before the collapse of the Berlin Wall, the end of the Cold War, the many hot wars that America has been involved in after the 9/11 attack. Thus its views of the American past up to 1985 is untainted by the modern events. But that said, this book is out-of-date. Read more. Discover highlights from American history, including military events and founding documents. The history of the United States is vast and complex, but can be broken down into moments and time periods that divided, unified, and changed the United States into the country it is today: 1700-1799. The American Revolution (sometimes referred to as the American War of Independence or the Revolutionary War) was a conflict that lasted from 1775-1783 and allowed the original 13 colonies to remain independent from Great Britain. American politician and soldier George Washington became the first president of the United States in 1789, serving two terms. The history of the United States, a country in North America, started with the arrival of Indigenous people from Siberia before 15,000 BC. Numerous cultures formed, and many disappeared before 1500. The arrival of Christopher Columbus in the year 1492 started the European colonization of the Americas.
