Presentation on theme: "Inclusive Physical Education Inclusive Physical Education - Students with disabilities and the adaptive dimension (presentation, handouts and discussion)" Presentation transcript: 1. An inclusive physical education environment is one which provides the opportunity for students of all abilities and interests to participate in physical education. Inclusive physical education recognizes the inherent value of each student; the right to take risks and make mistakes; the need for independence and self-determination; and the right to choice. A student with a disability benefits from a quality physical education program as much as any other student.
