An investigation of what we should be aiming at in education, and what concepts of the human being and the good society should lie behind our aims. The author compares the general aims of education for which he argues, with those which can be perceived to underlie the National Curriculum. (retrieved from Amazon Thu, 12 Mar 2015 18:22:35 - 0400). Library descriptions. An effective National Curriculum therefore gives teachers, pupils, parents, employers and their wider community a clear and shared understanding of the skills and knowledge that young people will gain at school. It allows schools to meet the individual learning needs of pupils and to develop a distinctive character and ethos rooted in their local communities. And it provides a framework within which all partners in education can support young people on the road to further learning. Values and purposes underpinning the school curriculum Aims for the school curriculum The national framework and the purposes of the National Curriculum. How efficient is doctoral education nowadays when it is facing shifting borders between universities and the outside world, especially in the context of new labor market demands? What indicators should be used when evaluating the efficiency of doctoral programs? To what extent do those indicators reflect the goals of modern doctoral education? Efficiency of doctoral programs may also depend on students'™ goals and motivation. The present issue sheds light on who doctoral students are and why they choose this path. The quality of doctoral education, conditions for degree awarding, and alumni emp

Getting the National Curriculum right presents difficult choices and balances. It must be robust enough to define and defend the core of knowledge and cultural experience which is the entitlement of every pupil, and at the same time flexible enough to give teachers the scope to build their teaching around it in ways which will enhance its delivery to their pupils. It will play an important role, alongside other aspects of the curriculum and school life, in helping pupils to deal with difficult moral and social questions that arise in their lives and in society. About this handbook. The school curriculum and the National Curriculum: values, aims and purposes.
