Teachers!

The American President is a ready reference that any teacher of American history or American government will find useful to have. The layout provides quick access to key facts, e.g. members of a president's cabinet, personal data, inaugural addresses, plus both U.S. and world timelines. Each chapter provides a quick refresher before a lecture on a topic relevant to a particular president.

Students!

The American President is a very useful, one-volume encyclopedia. It contains a comprehensive index and has the added advantage of even being cheaper than even the average trade paperback book.

Librarians!

The American President is a fact-filled, easy-to-navigate reference well suited for library use. It should be in all school libraries ranging from middle and high school to college and university collections.

Monthly Features:

September -- It's "Back to School" time. Discover what kind of students our presidents were in their early days.

October -- Celebrate the birthday of Theodore Roosevelt who was of one of our nation's most gregarious leaders. He truly had a "bully time" as president.

November -- Last years election was historic in many ways. Take a look back at other presidential elections that were anything but usual.

December -- Over the years, the White House has become not only the presidential home but the site of numerous traditions, not the least of which is Christmas. See how first families have celebrated this holiday in this most special home.

January -- Begin the start of a new year by learning how different presidents made their own historic "firsts."

February -- "Love is in the air" when three of our presidents become bridegrooms. See how Cupid's arrow struck Presidents Tyler, Cleveland, and Wilson, who found time to woo and wed their brides while also running the country.

March -- In honor of Women's History month, learn more about our first triumvirate of First Ladies--Martha Washington, Abigail Adams, and Dolley Madison.

April -- Spring is here. Discover what pastimes have been favored by our chief executives.

May -- "Give 'Em Hell, Harry!" became his campaign slogan, and it aptly fit the man from Independence, Missouri. Learn more about Harry Truman, and how he came to be one of the twentieth century's key presidents.

After four years in the White House, Martin Van Buren quipped, "As to the presidency, the two happiest days of my life were those of my entrance upon the office and my surrender of it." Even Thomas Jefferson--one of the country's Founding Fathers--struggled with the realities of the job, saying, "No man will ever bring out of the presidency the reputation which carried him into it. To myself, personally, it brings nothing but increasing drudgery and daily loss of friends."

An American president must ultimately take responsibility for the direction of the country, an ideal succinctly expressed by Harry S. Truman, who told his fellow citizens that "the buck stops here." Embracing that sense of responsibility may have been easier for some presidents--Calvin Coolidge and William Jefferson Clinton, for instance, both held the office during economic booms--than for others, who served during more trying times. But even presidents like Franklin D. Roosevelt, who occupied the White House at a time of war, nonetheless resolutely took up the gauntlet of protecting and improving the social and economic welfare of the American people.

Of course, hard times test the mettle of every president, however golden the age in which he serves, because the problems of the country--and the world--are often left at the president's feet. And though he can rely on the counsel of his Cabinet as well as the Congress and Senate, the burden of making each decision, not to mention accepting the consequences, rests squarely on his shoulders alone. As John F. Kennedy remarked, "No easy problem ever comes to the President of the United States. If they are easy to solve, somebody else has solved them."

And what is life like after a president's term ends? After the inaugural speeches, State of the Union addresses, summits and conferences, bills passed or vetoed, a president leaves office feeling an enormous sense of relief. But, of course, this isn't the only emotion these men deal with in retrospect. Frequently, with more time to contemplate the past, regret also becomes a companion for some ex-presidents. In his memoirs, Lyndon B. Johnson confided, "I regretted more than anyone could possibly know that I was leaving the White House without having achieved a just, an honorable, and a lasting peace in Vietnam."

Within the pages of *The American President: A Complete History*--perhaps the most authoritative and readable single-volume reference work of its kind--historian Kathryn Moore presents a riveting narrative of each president's personal and political experiences in and out of office, along with illuminating facts and statistics about each administration, fascinating timelines of national and world events, astonishing trivia, and much more besides. These details are here woven together to present a complex and nuanced portrait of the American presidency, from the nation's infancy to today.

History News Network
Because the Past is the Present, and the Future too.

The Secret Service protects the American President around the clock. It checks food and the hotels where a President lives and plans his trips and journeys. A President travels across the country or abroad in his own planeâ€”Air Force One. It is a Boeing 747 in which he can work and live as in the White House.Â He helped end slavery and stopped America from breaking apart in the Civil War (1861â€”1865). He was also the first presi-dent to be murdered in office.

The American President is a 1995 American romantic comedy-drama film directed by Rob Reiner and written by Aaron Sorkin. The film stars Michael Douglas, Annette Bening, Martin Sheen, Michael J. Fox, and Richard Dreyfuss. In the film, President Andrew Shepherd (Douglas) is a widower who pursues a relationship with environmental lobbyist Sydney Ellen Wade (Bening) " who has just moved to Washington, D.C. " while at the same time attempting to win the passage of a crime control bill during a re-election The American President (1995). by Aaron Sorkin. More info about this movie on IMDb.com. For educational purposes only. Fade in: As the OPENING TTTLES ROLL against a series of shots of statues and paintings of former presidents, we HEAR shards of dialogue from various presidential speeches. Main titles end on. Ext.
