Block 1 Lecture 3: "Race", Nationalism and National Identity. Next: The symbolic construction of community. Your reading intentions are private to you and will not be shown to other users. What are reading intentions? Setting up reading intentions help you organise your course reading. It makes it easy to scan through your lists and keep track of progress. Here's an example of what they look like: Your reading intentions are also stored in your profile for future reference. How do I set a reading intention. To set a reading intention, click through to any list item, and look for the panel on the left hand side Ethnicity and nationalism, interethnic conflicts, and secessionist movements have been major forces shaping the modern world and the structure and stability of contemporary states. In the closing decades of the twentieth century, such forces and movements emerged with new intensity. The theory is based on two focal arguments: one, that ethnicity and nationalism are not "givens" but are social and political constructions; and, two, that ethnicity and nationalism are modern phenomena inseparably connected with the activities of the modern centralizing state.
