I am trying to edit the Title tag of our Author pages. Right now they just display first and last name. Additionally I want to add pagination to them, eg: "JR Hopwood | Page 2". I tried to do this through the Yoast plugin but it does not seem to be applying (here's an example: <https://www.bluefinstrategy.com/articles/author/jrhopwood/>). The author tag doesn't exist though So what is the commonly used HTML5 tag for authors? Thanks. (If there isn't, shouldn't there be one?) The pubdate attribute indicates that that is the published date. The title attributes are optional flyovers. The byline info can alternatively be wrapped in a within an . If you want to add the hcard microformat, then I would do so like this
